

Resistance class **EI120**( $v_{ew} \text{ i} \leftrightarrow \text{o}$ ) **S1500C<sub>mod</sub>** **AAmulti**

Multicompartment rectangular smoke control dampers DKISMA meet requirements for Smoke and Heat Exhaustive Ventilation Systems (SHEVS)

- combined with HVAC,
- with obligatory daily check procedure,
- where smoke control dampers operated only in the case of emergency

Basic features:

- Multi compartment SHEVS
- Automatic activation
- Pressure level 3 - differential pressure at ambient temperature up to **-1500 Pa**
- Tightness of the blade class 3 and casing class C according to EN 1751 as standard
- **Modulating application**
- Dimension range **200 × 200 – 1600 × 1000 mm**
- Sheet metal casing
- Flanges 30 mm width
- **Wet installation** into standard **rigid or flexible wall** using plaster/mortar/concrete
- Maintenance free
