

AirMaze Panel I & III PROTECT YOUR AIR PATH

AirMaze is a compact air path protection capable of removing wind-driven water and sand particles from even high air speed applications.

The AirMaze is designed for rough climate conditions, optimising filter service life and protecting the shelter and cabinet applications from intruding water and sand particles.

FEATURES AND BENEFITS

- Compact air path protection for frame mounting
- Designed for protection of indoor Free Cooling units
- Standard material: aluzinc
- Optional insect protection grid (painted RAL 7035)
- Optional customer-specified colouring
